# World Economic Forum Annual Meeting

## Stakeholders for a Cohesive and Sustainable World

The World Economic Forum Annual Meeting in Davos-Klosters is the foremost creative force for engaging the world's top leaders in collaborative activities to shape the global, regional and industry agendas at the beginning of each year.

It will bring together 3,000 participants from around the world, and aim to give concrete meaning to "stakeholder capitalism", assist governments and international institutions in tracking progress towards the Paris Agreement and the Sustainable Development Goals, and facilitate discussions on technology and trade governance.
